

## Handheld PCs presents 'picture perfect' health & safety solution with hand-e-pix and BlackBerry

IOSH 10 sponsor, Research in Motion – providers of the BlackBerry smartphone device, confirms its exhibition presence will be supported by key partner, Handheld PCs.

**LONDON – 19<sup>th</sup> March 2010** – Handheld PCs Ltd today announced it will exhibit its hand-e-pix solution to the audience at IOSH 10 on the Research In Motion stand (F3). The exhibition takes place on the 24<sup>th</sup> & 25<sup>th</sup> March at the Scottish Exhibition and Conference centre in Glasgow.

IOSH is the Chartered body for health and safety professionals. With more than 35,000 members in 85 countries, IOSH is the world's biggest professional health and safety organisation.

Handheld PCs has been selected to exhibit its hand-e-pix solution which enables organisations to collaborate on health and safety issues in real-time. Companies of all sizes use hand-e-pix to manage, in some cases, huge volumes of images and turn them into true photographic assets. Invaluable opportunities for health and safety training can be identified immediately. Additionally, insights into workflow processes, behavioural patterns and business trends are highlighted.

Handheld PCs will be unveiling its new image repository, the hand-e-pix Media Manager, and BlackBerry client at the IOSH 10 event.
